

How to make a snowflake

Create a Winter Wonderland by making lots of snowflakes to hang in your room and think of your wish!

1

Take a square piece of paper & fold it in half to make a triangle

2

Then fold in half again, making a smaller triangle

3

Now fold into thirds...

4

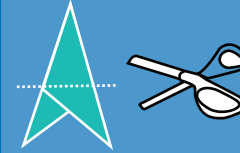

...it will end up looking like this.

5

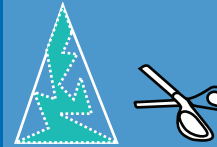

Flip your triangle over so you can see this horizontal line

6

Use this line as a guide to cut straight across your triangle

7

Cut fun shapes & areas out of the sides of your triangle

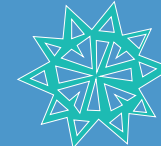

TIP: Be careful not to cut the whole way across your triangle.

8

Now it's time for the fun bit!
Carefully unfold your creation...

9

Hooray!
You've made a snowflake!!

TIP: Add some string so you can hang your snowflake up and decorate your room.

10

Did you know that no two snowflakes are made the same?! Try making another one & see for yourself!
Decorate your paper, cut out different shapes - you'll end up with a different snowflake each & every time!
